

Quality care results from the Unity Acute Rehabilitation & Brain Injury Program

PERFORMANCE MEASURE	2009	2010	2011	
VOLUMES FOR ACUTE REHAB				
• Total # of people served	212	268	284	
• # of people served, by condition:				
– Head Injury/Brain Dysfunction	54	77	102	
– Stroke	100	142	125	
– Orthopaedic Condition	24	11	7	
– Spinal Cord Injury	2	11	20	
– Neurological Condition	9	10	13	
– Amputation of Limb	4	2	7	
– Burns	0	0	0	
– Major Multiple Trauma/Medically Complex	19	15	10	
PREDICTED OUTCOMES				
• % of patients who achieved predicted outcomes	96%	98%	98%	
AMOUNT OF THERAPY				NAT'L AVG*
• Average amount of therapy each patient receives per day	3 hrs. 15 min.	3 hrs. 16 min.	3 hrs. 22 min.	3 hrs.
FUNCTIONAL IMPROVEMENT (FIM)				
FIM score from admission to discharge. <i>(The higher the number, the better.)</i> The goal of rehabilitation is to improve the patient's ability to resume control over activities of daily living and function as independently as possible.				NAT'L AVG
• Brain Injury	43.2	39.6	42.9	29.2
• Stroke	31.2	30.3	30.3	25.8
LENGTH OF STAY				NAT'L AVG
• Average length of stay at the Unity Acute Rehab & Brain Injury Program	22.5 days	20.3 days	18.2 days	13.4 days
AFTER REHAB				
Where patients go after rehabilitation				NAT'L AVG
• % of patients who go home	75.8%	64.7%	65.2%	63.5%
• % of patients who go to a skilled nursing home	12.4%	21%	19.9%	19.3%
• Other/Acute Care Hospital	11.8%	13.9%	14.5%	13.6%

Unity Acute Rehabilitation & Brain Injury Program (CONTINUED)

PERFORMANCE MEASURE	2009	2010	2011	GOAL
---------------------	------	------	------	------

PATIENT SATISFACTION

<ul style="list-style-type: none"> • % of patients who would recommend the Unity Acute Rehab & Brain Injury Program 	97%	98%	98%	100%
<ul style="list-style-type: none"> • % of patients who rated the care as excellent at one of our four outpatient rehabilitation sites 	98%	99.4%	99.2%	100%

Unity Aquatic Therapy

Unity Physical Therapy and Rehabilitation offers aquatic therapy at two locations. Aquatic therapy is designed uses the physical properties of water to assist in patient healing and exercise performance. It can help patients who have had an orthopaedic injury, joint replacement, arthritis, back/neck injury, balance disorders, gait deviations, and neurological disorders. For more information about aquatic therapy, call (585) 368-6600.

* Uniform Data System for medical rehabilitation
